# Why Wonky Bowls?

*They are unique!*

You never get  
the same  
wonkiness in  
2 bowls!

*They are fun!*

They look  
3D and  
that's cool!

*They are  
educational!*

You get to  
explore colors  
with  
skinner blends!

# Supplies and Tools

- 
- 2–3 different colors of clay, up to a 2 oz package each

\*Can be done with however many colors you want

- 
- Fat Daddio medium bowl
  - Pasta machine
  - Tissue blade
  - Paper or Deli paper
  - Burnishing tool
  - Oven

## OPTIONAL

- 
- Slicer
  - Measuring mat

Look How Low  
Lowry!

# Step 1: Choose your colors

# Step 2: Make your skinner blend

# Step 3: Blend until you're happy

**Step 4: Fold skinner blend lengthwise  
2-3 times to get to 1.5" in width**

# Step 5: Lengthen your strip

**MINE WAS ABOUT 31"**

# Step 6: Make a 1" wide fanfold

# Step 7: Reduce the fanfold plug

# Step 8: Reduce the fanfold plug to 1cm

# Steps 9–10:

Prepare a base layer of clay in a coordinating color (or any color you want!) on a medium-thick setting. I use a #3 on my Atlas.

Slice 2 slices from your reduced cane. At the top left corner of the base clay, put one slice light side up. Next to it on the right, put the other slice dark side up (or vice versa). Keep going repeating that pattern, ending with the opposite color slice up.

Burnish well, but not too hard. You don't want to smear the pattern. You just want to join the seams if you can. Then run through one way on your machine on the thickest setting and the other way on your 2nd thickest setting.

**Step 11: Mold in a bowl by making folds on all 4 sides and cure according to recommended temp/time.**

**Remove from bowl when completely cool**

*Thank you!*
